

Sumo Front Weight 1000kg - 2500kg

Description

A multipurpose implement used to ballast any tractor with a front linkage. The benefits of a properly ballast machine results in the user being able to utilise the full pulling power of the tractor as well as balancing heavy loads when driving on the roads.

The integral toolbox on the Sumo Front Weight is available in four weights (1000kg, 1500kg, 2000kg and 2500kg), it can be used to store or carry many different items, from tools to wearing parts. The toolbox also aids driver safety by providing a much-needed place to store clutter from the cab floor.

All of the Front Weights come in red & black with internal toolbox, tool tray, high visibility stickers, LED lights and personalised front plate as standard. Bespoke colours are available at an extra cost.

- High visibility stickers
- LED marker lights
- Personalised nameplate
- Toolbox with removable tool tray and lockable lid
