

Wessex International ATV Mower AR Series Rotary

Description

The Wessex AR rotary mower is the first choice for paddock topping & maintaining regularly mown grass areas. Well suited to general pasture topping or fine turf work, Wessex AR's are popular on farms, studs and private estates, and will complement an ATV, utility vehicle or 4 x 4.

Available in 1.2m, 1.5m and 1.8m working widths, & with a variety of engine sizes.

- 5MM DECK – Shot-blasted and powder coated for durability
- SWIVELLING BALL HITCH – Satisfies Health and Safety recommendations
- TURN BUCKLE ON THE DRAWBAR – Levels the machine for an even cut
- DRAWBAR CAN BE OFFSET TO EITHER SIDE – Cut outside of the quad wheelings
- THROTTLE LEVER – Clips on to ATV rack for user convenience

- HEAVY DUTY BLADES WITH UPTURN ON TRAILING EDGE – Durability and strong suction effect
- 16 X 6.50-8 TYRES
- WHEELS IN-LINE WITH THE ROTORS – Very well balanced, minimal weight on drawbar and excellent ground contour following
- FRICTION WELDED SPINDLES – Run in heavy cast housings for maximum durability
- CENTRIFUGAL CLUTCH – Allows the blades to be engaged / disengaged from the seat
- SIMPLE BELT ADJUSTMENT – Both belts are tensioned simultaneously by one simple sliding action of the engine
