

Wessex International SM-66 Scrubmaster Rotary Slasher

Description

Ideal for controlling areas of dense vegetation or heavy scrubland, the Wessex Scrubmaster has an enviable reputation for serious scrub-clearing ability. At work in woodlands and areas of forest across the UK and Europe, the Scrubmaster will power its way unstoppably through dense brush and scrub. Constructed from heavy gauge steel plate with an exceptionally high performance drive system, the Scrubmaster is built to last.
