

Wessex International STX Paddock Cleaner

Description

A clean & tidy paddock is essential for maintaining a healthy environment for your livestock. The STX-120 and 180 are designed to turn a paddock sweeping chore into a pleasure. The strong and simple mechanics of this machine means horse droppings, twigs and other debris is swept up and into the hopper whilst the grass benefits from the grooming action of the bristles – an advantage not gained from vacuum machines.

HARD WEARING POLYPROPYLENE BRISTLES – Clean sweep every time.

BRUSHES EASILY REPLACEABLE – Ease of maintenance

GROOM THE Paddock AS YOU SWEEP – Generate new fresh grass

HYDRAULIC TIP – Clean discharge
